Innovations and hot deals.
2018 EN. 

High quality hand tools and more since 1900.

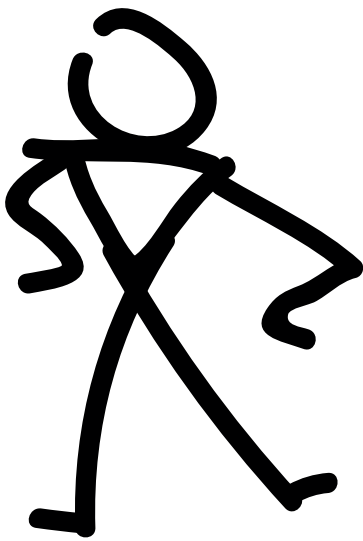

Be a MATADOR.

MATADOR is one of the **pioneers in the tool industry**. Since **1900** we have been producing **quality hand tools** „around the screw“ in Remscheid, the German capital of the tools industry. Our core competences are spanners, sockets, torque and pneumatic tools as well as modules for workshops. **For all kind of screws from 3.2 to 230 mm**. 4,500 catalogue articles. Tried and tested a million times. Available in >70 countries. For ambitious users in industry, trade and the automotive industry. MATADOR is an **accredited supplier of all major OEMs** like Audi, Bosch, Ford, MAN, Mercedes-Benz, Volkswagen, Volvo, etc.

Beyond the ordinary.

MATADOR is **the opposite of mainstream**. We stand for upmarket premium tools. Reliable, design-focused, efficient. Intelligent tightening tools made for decision makers, fighters and **everyday heroes**. For real MATADORS.

For people who know and express what they want. People **who are inside the arena**, not in the stands. Who know **the difference between tools and toys**. Who do not seek excuses and are true to themselves. Past and present. For down-to-earth, straightforward and assertive individuals with life experience and stories to tell. Who overcome adversity, manage a healthy work-life balance and **believe in themselves**. Who appreciate the exceptional and own pretty things. Who do not hesitate to show that. For people who have fun and enjoy life. Welcome to the arena.

Be a MATADOR.

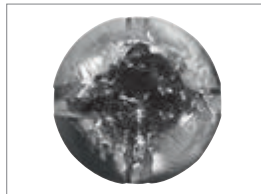

Screw IT!

■ Screw Extractor

Loosens nearly all damaged, unhardened and even rusty screws without thread repair tools. **The problem:** Screws of low quality are used more and more. **The consequence:** Damaged and rounded screw heads are no longer an exception. Even the best screwdriver will be of no use. The screw cannot be loosened. **The solution:** In most cases the screw can be loosened without employing laborious threading tools: Simply drive the tip of the the **MATADOR ScrewIT!** down into the screw head by using a hammer, then unscrew the screw - done!

ART. CODE
0770 0002

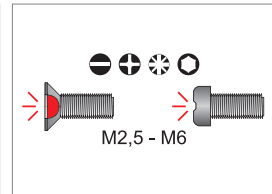

10,95 €

Perfect for rounded or rusted screw heads.

With injected impact cap.

For all threads from M2,5 - M6.

It's time for something new.

1919.
The first lever ratchet.

2018.
The Boss. The new **Z90**.

It takes something more to make a really good ratchet.

More teeth. More power. More grip. More applications. More design.

25%

reduced angle (only 4°) compared to standard fine-toothed ratchets thanks to an **innovative 90-teeth technique**. Still ready for working even when it gets really tight.

50%

more torque than requested in the DIN standard (e.g. 12.5 mm (1/2") > 750 N·m). Still loosens screws when others have long given up.

Push-button lock for a safe connection between ratchet and socket.

Recessed, **flat lever** for quick change of direction.

Extremely robust square shank made of **Chrome Vanadium steel** for high resilience in every situation.

Extremely fine toothed, extremely strong, extremely ergonomic.

Since the presentation of **the first reversible ratchet back in 1919** MATADOR has been intensively dealing with drive technology. MATADOR ratchets have been developed for professional users. They are proven **millions of times** and **well-known for their solid workmanship and durability**. But what features must the ideal 21st century ratchet have?

We thought a lot about how we can stay true to our line and at the same time create an innovative, real master piece.

The result is our new „Boss“: the **Z90**. **Aggressive in appearance, outstanding in function, with a rich sound and uniquely ergonomic**. With the new **Z90** every screwing task becomes an experience.

The **Z90** has a little more of everything. **More torque** (50% more than requested in the DIN standard), **more teeth** (25% than standard fine-toothed ratchets), **more applications** thanks to its especially small swivel angle of only 4°, **more grip** with its ergonomic, hand-friendly handle made of several components and last but not least: **More Design**.

No frills but classic in shape and **with aggressive details**. Made of high-alloyed chrome vanadium steel and fully CNC machined the **Z90** stands for precise production competence. Tested for at least **30,000 tightening cycles** it is made for the long haul - just a typical MATADOR.

Light grey, soft zone made of TPE plastic, especially anti-slip, for good grip and a comfortable support to the fingers.

Medium grey, nubby zone made of TPE plastic, large area for non-slip grip and transmission of high powers.

Black, hard zone made of special plastic for quick gripping without sticking.

Ergonomic and comfortable **thumb rest**.

max.

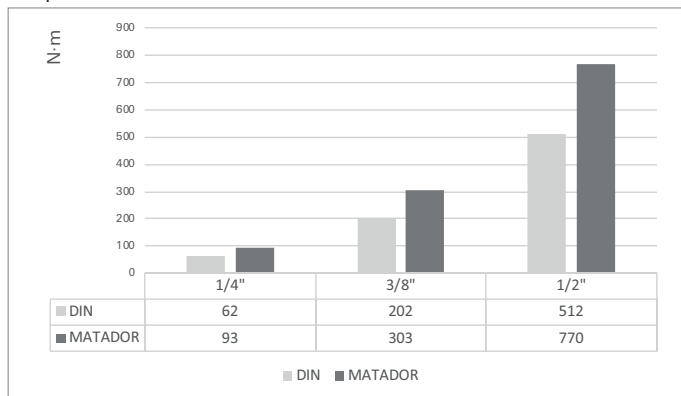

ergonomics thanks to multi-component handle, better than standard 1- or 2-component handles. Optimally adapted, spherical shape.

Practical **hanging loop** to secure the ratchet during construction work or to hang on a tools panel.

Outstanding technical features.
Developed for the long haul.

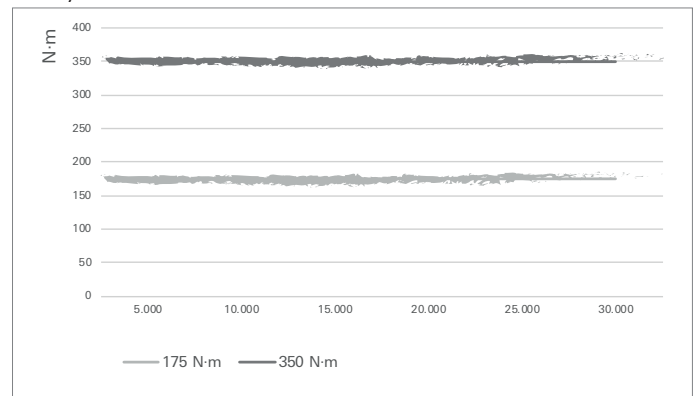

Torque test:

Torque test with 10 ratchets each type, tightening up to 50% above DIN standards. Outcome: No deformation, no restrictions.

Life cycle test:

Life cycle test: 1/2" ratchet with 30,000 loading cycles at 175 N-m and 350 N-m permanent load. Outcome: No wear and tear.

Perfect ergonomics.
Sometimes it's hard to let go.

Powerful.

2x4 double pawl for maximum power development.

Comfortable.

Completely new developed multi-component handle.

Practical.

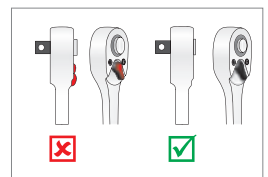

Practical hanging hole for securing the tool.

Safe.

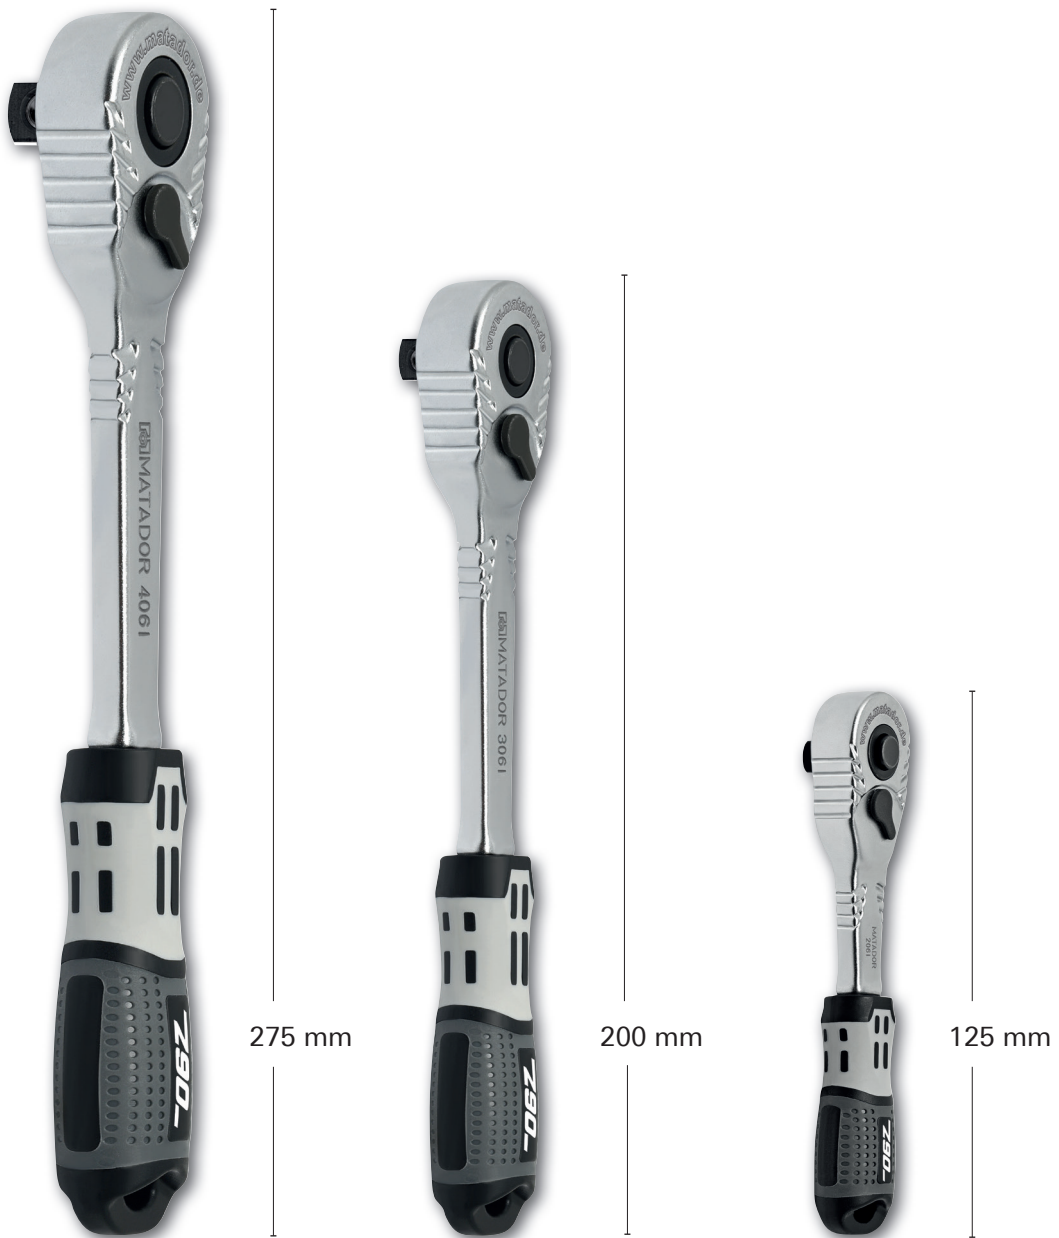

Push-button lock for safe working.

Economic.

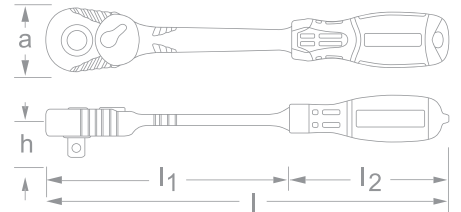

Recessed lever for low wear.

3 sizes - from ultra compact to really powerful.
Perfect dimensions.

Just exchange your old one.

Available as a single tool or in a double or triple pack.

The new smartyBOX.

Intelligent tools ultra-compact.

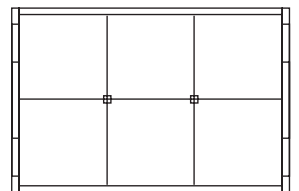

Folding plastic handle.

Stackable and can be clicked onto each other for easy transport.

Corrosion-free, robust, stable, shockproof, dustproof, versatile, food-safe.

Compact in size:
W 206 x D 156 x H 63 mm.

Based on L-BOXX[®]-Mini, the L-BOXX[®] system by Bosch and Sortimo with numerous extension and combination possibilities.

smartyBOX empty, black, with dividers for up to 6 compartments
ART. CODE
8145 0020 **7.95 €**

Intelligent tools with numerous additional features in a versatile transport box - that is the concept of the **MATADOR smartyBOX**.

Small, compact, stackable and can be clicked onto each other for convenient transport. Thus you always have your most needed tools directly available on site.

Every smartyBOX covers a specific purpose:

The 61-pc set **S1 is a universal box** including the most important tools for small and bigger repairs at work, at home and for hobby. The new **90-teeth reversible ratchet 790** allows you to work even in the narrowest spaces. With the new MATADOR spinner handle you can create up to **30 different screwdriver combinations**. Thanks to all the adapters included a **blade length of up to 320 mm** can be reached. Together with the **innovative combination pliers** with **3KsoftGRIP** handle the S1 becomes a really intelligent allround set.

The **S2 is the perfect compact set** for all bigger screwing tasks from **6 - 22 mm**. Thanks to the handy **3/8" drive of the new 90-teeth ratchet 790** and together with the **8° swiveling extension bars** you do no longer need to worry about hard-to-reach areas. If more power is required especially **high torque values (up to 50% above DIN standard)** prove their advantage. The **adjustable wrench helps countering nuts** or whenever bolts and cables require an open ended wrench.

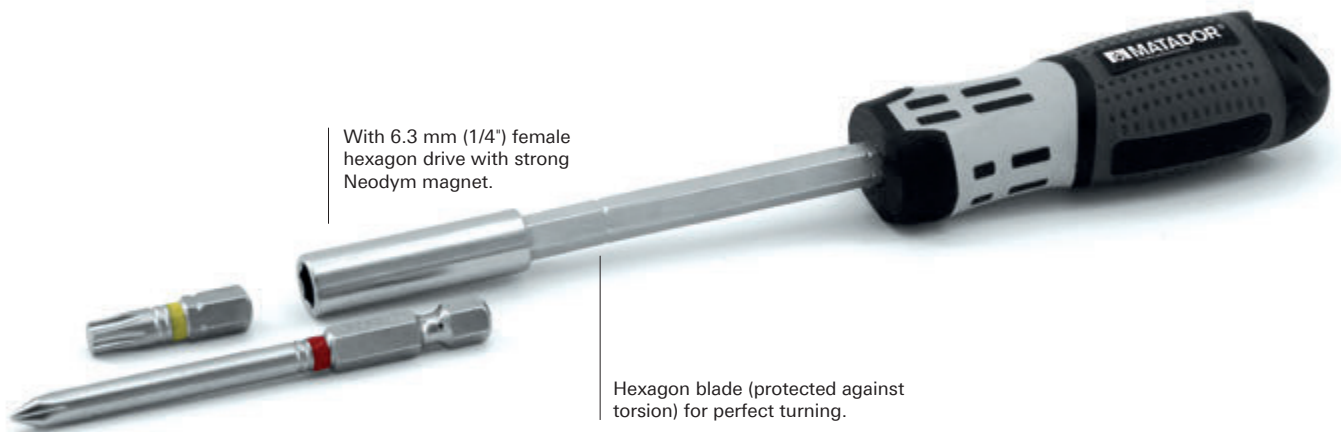

Finally, the **S3 is the perfect completion** to the smartyBOX series: Slightly angled combination **ratchet spanners from 7 to 19 mm with lever** and patented gear do your job quickly and safely. Thanks to the **additional ratchet adapters** the ratchet spanners can be used as operating tools for sockets.

The smartyBOX - really smart.

Sometimes the length is crucial.

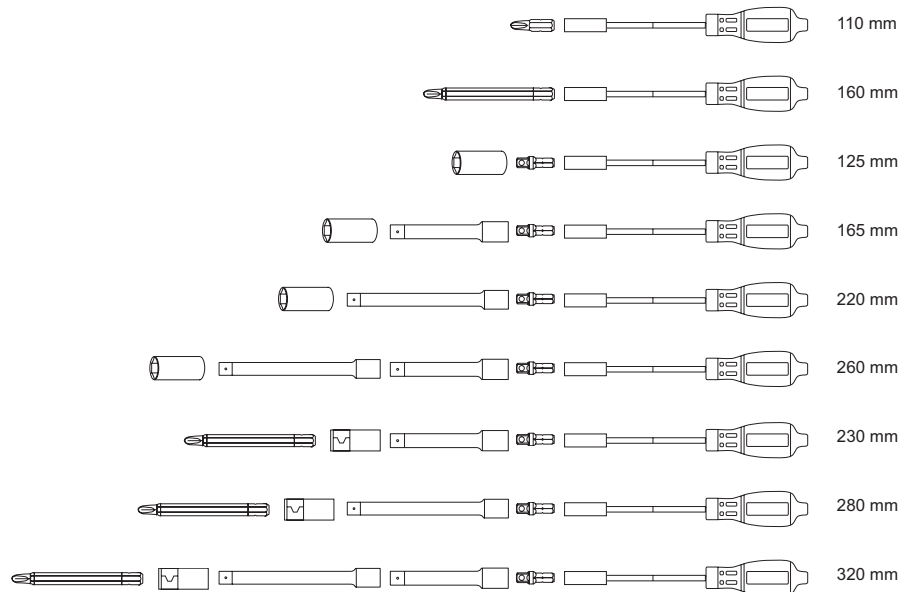

With the new MATADOR spinner handle you are definitely flexible.

With 6.3 mm (1/4") female hexagon drive with strong Neodym magnet.

Hexagon blade (protected against torsion) for perfect turning.

Extendable from 110 mm up to 320 mm.
When length counts.

■ **smartyBOX, 61 pcs**
S1 - Universal

Ultra-handly **universal box** including the new **790** MATADOR 1/4" reversible ratchet.

The absolute full equipment for screw tasks from **4 - 14 mm**, including **combination pliers with integrated ring spanner** for countering. With **innovative spinner handle** that can be used as a **multiscrewdriver** and extended to a total length of 320 mm.

Torque wrenches UNO.

One window. One value. One grip. One click.

Make complicated things simple.

Easy setting at the end of the handle.

Only one window with clear numeric value in N·m.

Error-free handling thanks to double-sided finger grooves.

Integrated lever ratchet with small head to reach tiny areas.

Well protected in solid plastic case.

Extremely precise and easy to use.

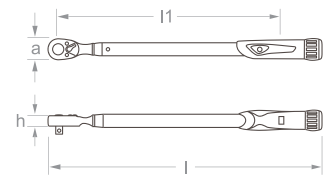

The new professional torque wrench by MATADOR with an **absolutely innovative operating concept**:

Easy setting with extra fine graduation (from 0.5 N·m to 1.0 N·m on larger models), **only one window with clear numeric value in N·m**. No division scale which is difficult to read.

With small ratchet head to reach tiny spaces, with lever and 48 teeth, safety lock and quick-release function. Permanent protection of the body thanks to full powder coating.

The handy and ergonomically optimal design of the handle with its integrated finger grooves make the correct use a breeze. Clearly audible and perceptible signal when the desired torque value is reached.

The MATADOR UNO is extremely precise: **maximum deviation only ±3%** from the set scale value. For controlled clockwise operation. With German calibration certificate according to DIN EN ISO 6789.

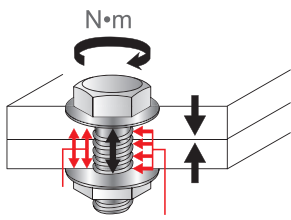

From 5 - 1,000 N·m.
For industry and automotive.

Digital torque wrenches.

For torque and torque angle configurations. Better safe than sorry.

For measuring torque and torque angle.

±2% ±1%

10 - 1,000 N·m

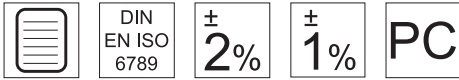

Stores up to 900 results and up to 30 different configurations.

With 9x12 or 14x18 mm rectangular cavity including MATADOR insert ratchet.

Models 160 - 800 N·m and 200 - 1,000 N·m with permanently integrated lever ratchet.

Ergonomically shaped, rubber coated handle for easy grip.

Large LCD display with high contrast for easy reading from any position.

Only 4 function keys, all functions can be set directly in the wrench without external device (like PC), very easy set-up.

Indicating, digital torque wrench, with or without angle function.

- For clockwise and anti-clockwise readings
- Accuracy $\pm 2\%$ (torque) and $\pm 1\%$ (angle) of the set scale value. ($\pm 1\%/\pm 1\%$ on request)
- Precise reading accuracy for a minimum of 10,000 tightening cycles
- With 3 optical LEDs and acoustic signal with buzzer (pre-warning = yellow, ok = green, not ok = red)
- Very compact design with in-handle LCD-Display (132 x 32 Pixel)
- Protected display with backlight
- „Peak hold“ and „Track“ modes
- With 9x12 or 14x18 mm rectangular cavity (models 160 - 800 N-m and 200 - 1,000 N-m with integrated lever ratchet)
- N-m, kg, lbf-in and lbf-ft.
- Individual programming of 30 different torque configurations and memory space for up to 900 tightening cycles
- Adjustable torque tolerance range
- Adjustable Auto-Off
- Password protection against accidental readjustment or unauthorized access
- Different selectable languages (G, E, I)
- Display of clock and battery status
- Only 4 function keys for easy access
- Easy access to all functions directly at the wrench, no computer configuration necessary
- Ergonomic, rubberized handle
- Data output RJ 45 with optional USB data transfer kit
- Including insert ratchet (up to 350 N-m)
- Including 4 x AA-1,5V batteries for long power
- With individual serial number and calibration certificate according to DIN EN ISO 6789 on which the accuracy is documented
- Delivered in solid plastic case with detailed instruction manual
- Optional readout software „EasyReport“ for saving all data to PC, with USB cable

Acoustic and optical signal through 3 LEDs with traffic light function.

Simultaneous display of torque and angle.

Well protected in valuable transport case.

For more details:

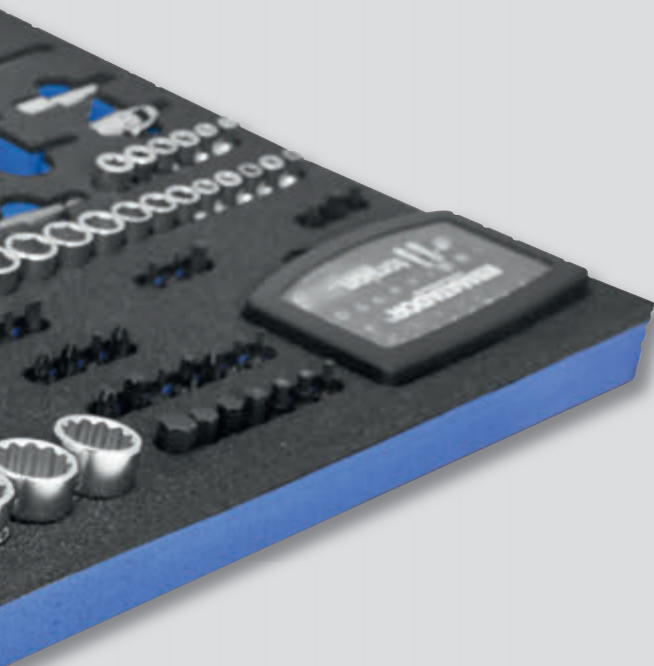

MTS unlimited edition.
350 high quality tools. 8 modules. That's it.

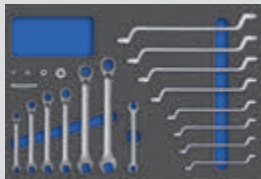

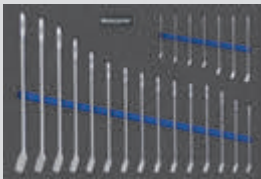

MTS

unlimited edition

Focusing on the essentials.

All inclusive.

MTS unlimited edition: 8 modules with 350 high quality tools.

Additional modules for automotive repair.

Which tools do you need?

It depends... Your tasks change.

Do you really want to spend your time looking for the right tools for your latest challenge? Do your new tools fit into the tool modules and tool storage system you already use? Probably not.

When you check the market you will find almost uncountable offers of fully equipped tool trolleys - but **what do you really need?**

Save your time and keep an overview because we have a better idea:

We set up a **comprehensive database** including all equipped tool trolleys that we have ever supplied to **BMW, Ford, Jaguar Land Rover, Mercedes-Benz, Volkswagen** and other customers, and we broke them down to the single tool.

Additionally, we included important **OEM specifications - like Volkswagen VAS 275 001** - and took the tool trolley range of other tool manufacturers into consideration. The unsurprising result:

Around **88%** of the tools listed can be found in any specification because these tools are needed in every workshop.

We added another **10%** of tools that make sense and give you enough scope

for future tasks. So you do not need to look for further additions again.

What came out is our **"MTS unlimited edition" with 350 tools that cover 98% of all application fields.** It's a safe bet.

For the remaining 2% we saved you lots of time.

Make something out of it!

For automotive repairs we added two modules with a comprehensive 10 (3/8) socket set and another module for car body work.

You won't need more tools. For details please refer to:

Single modules.

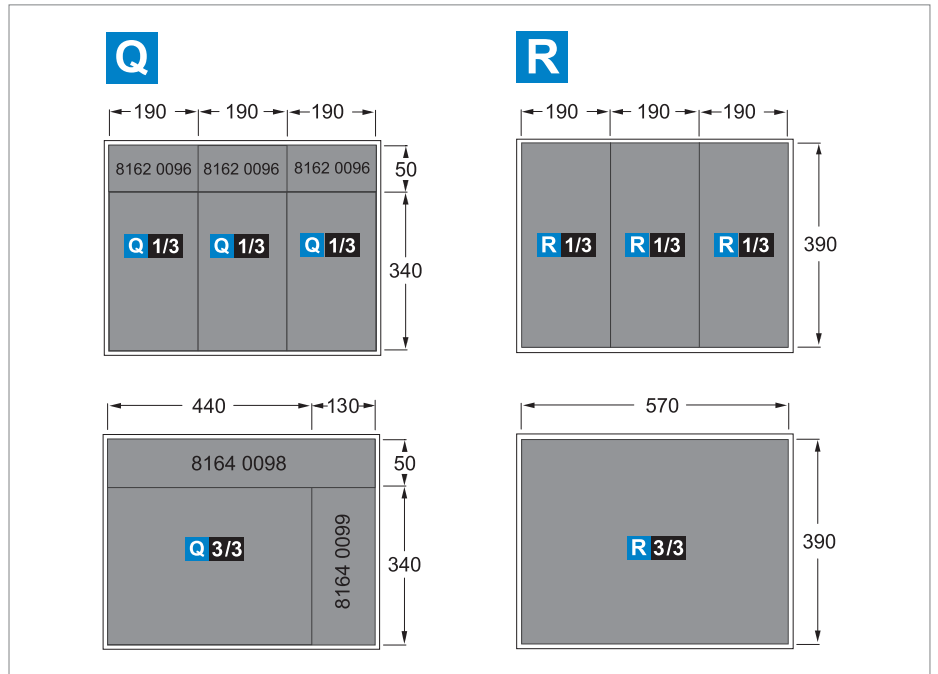

Flexibly combine suitable MTS modules with workshop trolleys.

MATADOR was one of the first manufacturers to develop **two-colored soft foam inlays** for better tool organization in tool trolleys or drawers.

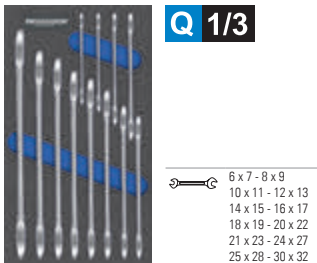

Today the **MATADOR Tool System MTS** includes **more than 100 different modules** and offers pre-configured and well-thought-out solutions for any application. The end user can choose from 2 different sizes that fit in a raster.

"Q" modules have a compact size of **340 x 190 mm (1/3)** or **340 x 440 mm (3/3)** and fit into most smaller standard tool trolleys. Available as 1/3 or 3/3 inlays the "Q" modules provide a basic tool equipment. Together with distance modules they also fit in all MATADOR trolleys.

"R" modules are the more **professional line**. They fit exactly into the MATADOR tool trolleys **RATIO, VARIO** and of course into the drawers of the **Men's Kitchen**[®]. The standard module size of **390 x 190 mm** allows many tools to be accommodated and therefore a comprehensive range is offered. The 3/3 modules sized 570 x 390 mm fill a complete drawer with tools. Empty modules help to easily combine different modules – for nearly unlimited applications.

Time to go new ways.

Cubes

by MATADOR.

MATADOR Cubes.

The most important tools in 5 Cube sizes. Freely combinable.

Small. Angular. Flexible. For everywhere.

Do you know the following problems?

- You own several cases for power tools, hand tools, small parts, etc. and whenever you prepare for work you pack half of your workshop and take it to the place of action.
- Chaos dominates your tool cases. You do not find anything.
- You just need only a couple of tools.
- You simply cannot find the specific tools you just need.
- Your tools are stored in another place and are not available at the moment.
- You do not like pre-configured blow-moulded tool cases because your favorite tools do not fit in or they contain tools you really don't need.

If these problems meet your profile, then you should change something. We can provide you with a solution: MATADOR Cubes.

MATADOR Cubes are **compact tools modules** in 5 sizes. They can be combined extremely flexible, they fit into any place and help to create a perfect order.

No more looking for tools. No more loss. Scratch-resistant. Shakeproof. Directly on site.

5 sizes. 1 basic raster. From 104 x 52 mm.

- For workbenches
- For tool trolleys
- For kitchen drawers
- For desk drawers
- For central trays in cars
- For Sortimo L-BOXX®
- For TANOS systainer®
- For raaco cases
- For W.AG cases
- For BAUHAUS system boxes
- For Stanley FatMax Organizer
- For rose plastic
- For Hofbauer
- For Würth plastic cases
- etc.

For workshop, home and hobby. For almost any drawer or box you want to put your tools in.

High quality tools with a system. Also perfect as supplementary equipment.

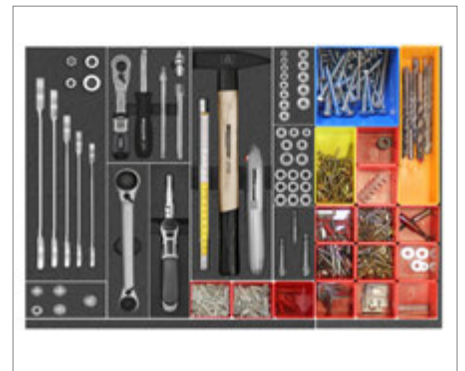

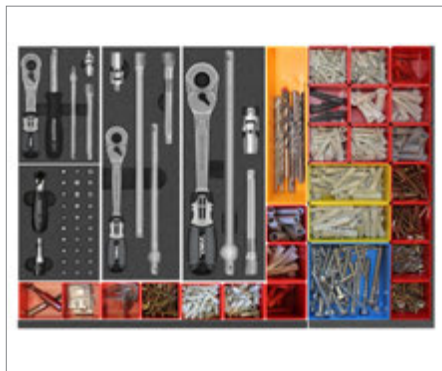

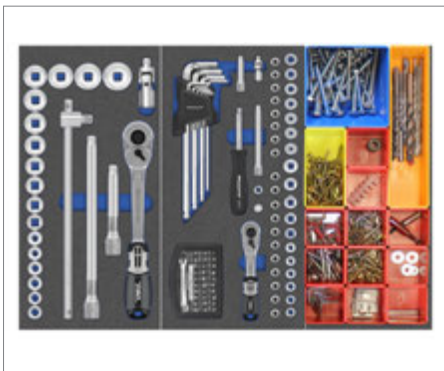

Do what you want.

Select what you need and where you need it.

Cubes 
by MATADOR.

Perfect for all places where you would like to have your tools.

MATADOR Cubes.

MATADOR Sockets 6 Stars-Comfort

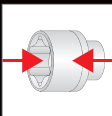

Chrome Vanadium Steel for high tenacity, exceeds temper values demanded according to DIN.

SUPER CHROM coating for perfect rust protection, cannot flake off.

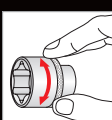

Double Smart Drive profile both on hexagon and square side is gentle on the screw. And what's even more important: On the ratchet.

Double coating inside and outside, does not transfer surface rust.

Stamped mark (not only lasered) for permanent identification and manufacturer's notification.

Knurled zone for manual high-speed turning even with oily fingers.

ART. CODE 0842 0001 **7.95 €**

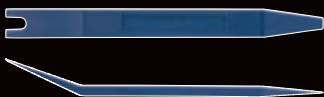

Spreader for shock absorbers

For spreading of the front shock absorber tube from the wheel bearing housing. Comparable with VW 3424.

ART. CODE 4078 0031 **7.95 €**

Multi Wedge

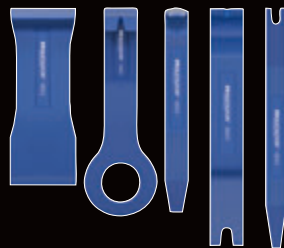

For removing panels, cover clips, carpets, etc. Very resistant material.

ART. CODE 0843 0004 210 mm **5.95 €**

Panel Removal Kit 5 pcs

Professional trim and panel removal kit.

ART. CODE 0843 9050 **11.95 €**

Rust Remover MA 2000

Removes rust and all other fixed compounds on screws, nuts, iron railings, lattice towers, etc. Effective wear and corrosion protection.

ART. CODE 8146 0001 500 ml **4.95 €**

Brake Cleaner

Ideal as a universal cleaner. Cleans brake and clutch parts without dismantling, removes brake fluid, oil, dust, etc.

ART. CODE 8146 0002 500 ml **4.95 €**

Pneumatic Tools.

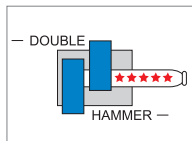

Still working when others have long given up.

High Performance Impact Wrenches

- EXTREMELY LOW NOISE.
- EXTREMELY LIGHT.
- EXTREMELY POWERFUL.

High-performance impact wrench with outstanding technical features. Extremely powerful, light and quiet. Twin hammer clutch mechanism with 6-blades rotor. **Cold-insulated, non-slip handle.** Ultra light **composite housing.** One-hand switchover. Extremely **low vibration**, ideal for continuous operation. Low air consumption. Exhaust air guided downwards through the handle. Including coupler.

New pliers is what the country needs.
With 3-component sleeves and many special features.

3KsoftGRIP

The new MATADOR pliers with **3KsoftGrip** sleeve provide an improved grip as you work thanks to its 3 components. The tailored shape of the handles and the combination of different, environmentally friendly materials make the pliers lie optimally in your hand. The ergonomically designed 3KsoftGrip handle with its **triple-zone** blend of handle textures ensures strain-free working. For increased safety, the tools feature an optimised shape to prevent hands slipping off the tool and an eyelet for retaining straps to secure the pliers when working on a roof, scaffolding or construction site.

Combination Pliers

For gripping, cutting und holding work. For cutting hard and soft wires. Inductively hardened cutting edges. Asymmetric inside jaws for better grip on the workpiece. Gripping zones for flat and round materials. With nail and wire holder and integrated ring spanner. Power transmission with optimum leverage for easy and effortless work. 3KsoftGrip handles.

289.- €

There are many tool cases in the market.

But only very few with high quality tools in a compact, full and uncompromising set.

BlackBox.

Shakeproof arrangement of the tools in soft foam inlays.

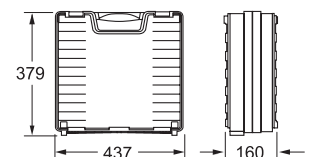

High functionality and easy-to-open intermediate plate.

High quality case „Made in Germany“ in a compact design.

Solid polypropylene construction with wide and rubberized handle.

The most important 125 high quality hand tools for work, home and hobby in one case.

Compact. Complete. Uncompromising.

4in1 GearWrench® ring ratchet spanners - the original.

High-quality ratchets, e.g. 12.5 (1/2) with torque exceeding 750 Nm.

Sockets in 5 star industrial quality with SUPER CHROM surface.

Innovative pliers set with 3KsoftGRIP handles and many special features.

High-quality screwdrivers set with ergonomic 2C handles.

Including SMARTY-Box, our practical universal socket box.

For more information please use the QR-code.

Everything included. Only high quality hand tools.

The MATADOR „BlackBox“ is a real surprise box. It contains everything a demanding and ambitious (hobby) mechanic needs for **large and small repairs and maintenance**. Thought-out compilation of tools, uncompromising quality and **many multifunctional tools**, e.g.:

- **4-pc pliers set with 3KsoftGRIP handles** incl. allround side cutter for cutting, stripping, crimping and bending work
- **4in1 pocket screwdriver** with pocket clip and the 4 most important screwdriver bits for slotted and cross-slotted (PH) screws incl. fine mechanics bits for glasses, mobile phone, keyboard, radio, etc.

- **4in1 ring ratchet spanner**, suitable for 70% of all screwing work
- **6.3(1/4) SMARTY-Box** including the MATADOR multi ratchet which combines T-handle, screwdriver, ratchet and special ratchet for confined spaces in one tool
- **2 hex key sets** for hexagon socket and TORX screws with softGRIP holder for quick key removal

Shake-proof tool storage thanks to soft foam inlay that keeps all tools in place during transport. In well-designed and stable plastic case.

MATADOR VDE tools.

Safety first.

VDE Torque Wrenches

Precise torque wrench with dip insulation according to IEC 60900 for all work under voltage of AC 1000 V and DC 1500 V. Insulation dipped in various layers with 2-layer safety dip insulation (red/yellow). **Tolerance only ±4%** of the set scale value. Precise reading accuracy for a minimum of 5,000 tightening cycles. For controlled clockwise tightening. Untightening with extra high loosening torque. Scale in N·m with large window. Clearly audible and perceptible signal when the desired torque value is reached. **Solid ratchet mechanism** with 30 teeth. With **German calibration certificate** according to DIN EN 6789:2003 Type II Class A. **Easy re-calibration.**

Men's Kitchen  [®]
by MATADOR.

A new world of tools by MATADOR.
Uncompromisingly good.

With standardized drawer dimensions - fit for all MATADOR MTS modules.

Select from more than 100 modules to find your perfect compilation.

Pre-configured or individually selected.

The smart modular system.

Fits in every room.

Brings order to your work environment.

Freely expandable.

Comfortable working height.

No drilling, no wall assembly.

High loading capacity.

Absolutely easy going.

Fully pre-assembled.

Solid metal construction.

Durable powder coating.

It is not only the single tool that counts: In a complex and increasingly digitally driven world it is getting even more important to have a place where you can be creative and where you can have the good experience to make something by hand.

For tool enthusiasts this place is the new **Men's Kitchen**® by MATADOR. **Men's Kitchen**® is not only a storage solution, it is a place where you will be inspired to create new things and where you will be highly motivated to „get the job done“.

Men's Kitchen  by MATADOR.

Our **pre-configured kitchen blocks** in different sizes fit into all rooms, from the broom closet up to the assembly hall. Thanks to its modular system the **Men's Kitchen**® is freely expandable and grows with your individual requirements.

The standardized drawer dimensions allow to include the professional MATADOR module system MTS into the **Men's Kitchen**® configuration so that all single tools will be in a perfect order.

With closets for power tools, storage boxes for all your individual small parts and our extensive program of accessories you can easily design your own world of tools, your own **Men's Kitchen**®.

Have fun!

3 star cuisine for real craftsmen. It`s served.

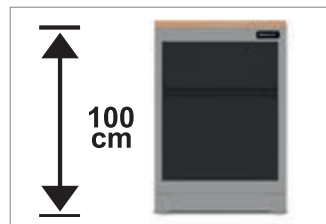

A little different kitchen.

✓ Extra high drawers for power tools and tool cases.

✓ Self-supporting construction, no drilling and wall assembly necessary.

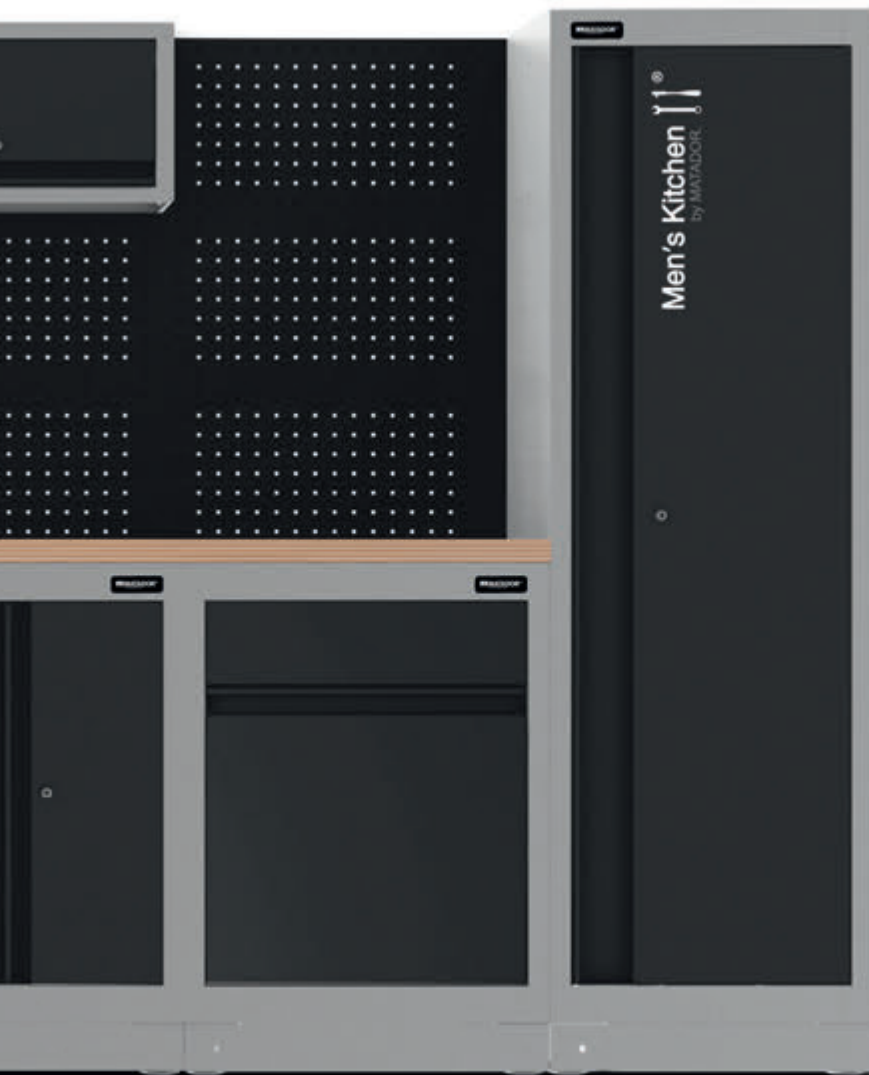

✓ Ergonomically optimal working height of 100 cm, with height adjustment screws.

✓ Cabinet with adjustable shelves available in 2 sizes.

Men's Kitchen[®]

by MATADOR.

The **Men's Kitchen**[®] follows a clear principle: Simplicity.

Our **pre-configured kitchen blocks** allow a well thought-out and complete workshop arrangement without spending much time on planning and later on assembly.

The assembly of the **Men's Kitchen**[®] is really easy: All cabinets are fully pre-assembled so that you do not need to screw together all the single parts. You only need to assemble the side and middle brackets.

The self-supporting construction requires no drilling or wall assembly. Your **Men's Kitchen**[®] can easily be set up anywhere in your room.

It can't be easier than that:

- Select.
- Unpack.
- Set up.

Ready.

- Cupboard with gas spring available in 2 sizes.

- Ball-bearing drawer slides, 45 kg capacity, full extension, central lock.

- Perforated panels for hooks and accessories.

- Stainless steel or wooden worktop.

For the broom closet.
Fit into the smallest room.

Men's Kitchen [®]
by MATADOR.
